Please Note:

Influenza vaccine will be provided from October 31, 2016 to March 31, 2017 to children who are 6 months of age but less than 9 years of age at the time of immunization. For those children, aged 6 months to under 9 years of age receiving their first influenza immunization, a second dose is required one month later and this will be available until April 30, 2017.

Please check with your local Public Health Office for clinic dates for these children.
